ANTOINE DE MAINTENANT

France - Canada | +1 (263) 385-6506 | antoinedemaintenant@alumni.ie.edu | linkedin.com/in/antoine2maintenant/

PROFESSIONAL SUMMARY

Expert in Business Intelligence and Process Automation specializing in the design of integrated data systems, with a proven track record in establishing analytical departments and orchestrating AI-driven autonomous workflows. By managing complex regional data strategies, I provide real-time predictive visibility to executive leadership while transitioning manual reporting into automated intelligence. This technical expertise is backed by a global perspective and high adaptability gained from living in 6 different countries.

PROFESSIONAL EXPERIENCE

NAOS – BIODERMA, INSTITUT ESTHEDERM *(CPG, Revenue €950m, www.naos.com)* — **MONTREAL, CANADA**

AI Specialist & Business Intelligence Lead | *NORAM – VIE* — June 2025 - TODAY

- Conducting regional audits to architect the integration of Generative AI and Agentic workflows.
- Engineering AI agent networks (n8n, Python, LLMs) for end-to-end data extraction, algorithmic analysis, and executive reporting.
- Migrating 30+ manual workstreams into autonomous pipelines, achieving an 85% gain in processing capacity.
- Managing the development, automation, and governance of Power BI reporting and BI solutions.

Business Analyst | *USA – VIE* — MAY 2024 – June 2025

- Directed the end-to-end creation of the US Analytics department, establishing all technical governance, data protocols, and reporting frameworks within 6 months.
- Developed and deployed a suite of 10+ automated Power BI dashboards, providing centralized and validated real-time visibility across business units.
- Engineered SKU-level sales forecasting models for major retail accounts including Amazon, Walmart, Target, Walgreens, Ulta, and CVS.
